

Quick start guide installation yallo Home Box

yallo

1 Insert the SIM card (see the graphic at the bottom of modem for the SIM card size)

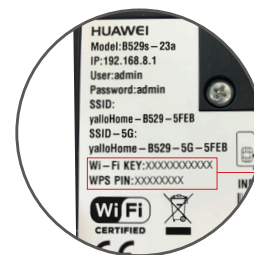

2 Turn the “yallo Home Box” on

3 Activate the Wi-Fi/WLAN function on your device (mobile phone, laptop, iPad, etc.) to connect it to the hotspot.

4 In the list of available hotspots, search for and select the following WLAN/Wi-Fi name (SSID): “yalloHome-B529-XXXX”

5 Enter the password (**Wi-Fi KEY**) from your device (you can find the Wi-Fi KEY on the label on the bottom of the yallo Home Box)

Wi-Fi Key: XXXXXXXXXXXX

6 Your device is now **connected** to the “yallo Home Box” and the MODE light is lit up blue.

7 (Optional) Change the name of the yallo Home Box or the WLAN password: <http://192.168.8.1> > **Settings** > **Security**
